

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

LISTING OF CLAIMS:

1. (original) A pigment dispersion for cosmetic products, wherein at least 90vol% of pigment particles have a dispersed diameter of at most 0.7 μ m.

2. (original) The pigment dispersion according to claim 1, comprising at least one pigment, a dispersing medium and a dispersant.

3. (original) The pigment dispersion according to claim 1, wherein the dispersing medium is an aqueous medium.

4. (original) The pigment dispersion according to claim 2, wherein the dispersing medium is an aqueous medium.

5. (original) A process for producing a cosmetic composition, comprising combining with at least one cosmetic ingredient a pigment dispersion according to claim 1 as coloring agent.

6. (original) The process according to claim 5, wherein the pigment dispersion is a pigment dispersion according to claim 2.

7. (original) The process according to claim 5, wherein the pigment dispersion is a pigment dispersion according to claim 3.

8. (original) The process according to claim 5, wherein the pigment dispersion is a pigment dispersion according to claim 4.

9. (original) A process for producing a cosmetic composition, comprising combining the pigment dispersion according to claim 1 with a polymer emulsion and a thickener.

10. (original) The process according to claim 9, wherein the pigment dispersion is a pigment dispersion according to claim 2.

11. (original) The process according to claim 9, wherein the pigment dispersion is a pigment dispersion according to claim 3.

12. (original) The process according to claim 9, wherein the pigment dispersion is a pigment dispersion according to claim 4.

13. (original) A cosmetic composition comprising at least one pigment and at least one cosmetic ingredient, wherein at least 90vol% of pigment particles have a dispersed diameter of at most 0.7 μ m.

14. (original) The cosmetic composition according to claim 13, further comprising a dispersing medium and a dispersant.

15. (original) The cosmetic composition according to claim 14, wherein the dispersing medium is an aqueous medium.

16. (new) A pigment dispersion for cosmetic products, comprising:

at least 90 vol% of pigment particles with a dispersed diameter of at most 0.7 μ m;

at least 60% water; and

a viscosity of not more than 5 cps.

17. (new) A process for producing a cosmetic composition, comprising combining the pigment dispersion according to claim 16 with a polymer emulsion and a thickener.
